	CCBR	EOBR
Simple	3%	3%
Compound	2%	5%

You must have the same type of inflation protection under both coverages, i.e., both simple or both compound. Unless rejected, the policy will default to compound inflation. The ROPR is available for ages 30–60 on 5- and 7-year policies at issue. The benefit becomes available once all planned premium payments are received and the ROP Threshold is met. Once the ROP Threshold is met, the amount of premium returned will be the greater of the surrender value or the ROP Threshold, less any loans, loan interest, or withdrawals taken from the policy or long-term care benefits paid. The surrender value is payable until the ROP Threshold is met. The policy terminates when this rider is exercised. The charge for the ROPR is deducted from the policy value.

If your entire specified amount of death benefit has been used to pay for long-term care, Lincoln MoneyGuard Reserve will pay your beneficiary a residual death benefit. At the time you purchase the policy, the benefit is equal to 10% of the initial death benefit. The residual death benefit will be adjusted by 10% of any loans, loan interest, withdrawals, or loan repayments. Loans are charged interest. (Not available in New Jersey or New York)
